

Style Guide

Character Spacing	Spaces between operators
Blank Lines	Between functions, sections of code, etc.
Indentation	4 spaces
Brace Placement	Braces go on same line
Max line length	80 characters
Variable declaration placement and alignment	Variables declared at top of section used, multiple of same type per line OK
Case statement alignment	Case statements aligned with switch statement
Comment layout	Simple comments on dedicated lines for sections of code, comments on same line for specifics on short parts of code
